KLTJ SERIES ADJUSTABLE STEAM SOLENOID VALVE

Application

- Flow regulator. Widely used in steam, water, gas, liquid automatic control.
- It can be independently arranged on the ironing, ironing equipment.
- All of the heat resistant materials, high temperature reach to level H.
- It can control the flow of steam, convenient operation.
- The electrical part of waterproof, moisture-proof performance.

Technical Specification

Item	Description
Port Size	ZG1/4"
Orifice Size	2.0mm (to be customized) 2.7mm 3.0mm (to be customized)
Valve Material	Brass
Seal	VITON
Meduim Temperture	-10℃~160℃
Operating Pressure	0~1.0MPa
Optional Voltage	12V/50; DC 12V; 24V/50; DC 24V; 110/120V/50; 220/230V/50
